Amirhossein Hamidian

Frontend Developer (React / Next.js)
Product Designer

Profile

Creative and detail-oriented developer with over 2 years of hands-on experience in frontend and fullstack web development using React and Next.js. Strong foundation in UI/UX design, TypeScript, and modern frontend tooling. Capable of independently designing, building, and deploying scalable web applications. Former Android developer with product management background, now fully transitioned into modern web technologies.

Work Experience

Fullstack Developer

Yoga & Meditation Learning Platform

Remote | Sep 2024 – Jul 2025

- Developed a full-featured online platform using Next.js, JavaScript, and TailwindCSS
- Designed and implemented a custom CMS to manage offline video content
- Responsible for UI/UX design, frontend development, backend APIs, and deployment on Liara
- Tech stack: Next.js, React, TailwindCSS, Node.js, REST API

Frontend Developer & Product Designer

Engineering Firms Internal Tool

Freelance | Nov 2023 – Sep 2024

- Designed a smart internal tool for engineering firms to manage technical documents
- Prototyped the entire UI/UX using Figma, with a focus on clarity and usability
- Developed the frontend using React.js, creating a fully responsive and performant interface
- Implemented features such as document search and chat-like interaction with document content

Personal Portfolio Website

Tehran | 2024

- Developed personal website to showcase portfolio and resume using Next.js + TypeScript
- Focused on clean design, responsive layout, and performance optimization

Android Developer

Pasazh App

Jul 2020 – Mar 2022

- Developed key social features like chat, voice chat using Java/Kotlin
- Also acted as Product Manager, focusing on user experience and business metrics
- Contributed to UI/UX design and team collaboration
